

COPPER MOUNTAIN, COLORADO MARCH 4-11, 2022

Copper Mountain is an unique resort with terrain that is naturally divided into beginner, intermediate, and expert areas, each located on different parts of the mountain and each generally served by its own lifts. The beginner terrain is in the West Village, where you will find the Schoolhouse, the meeting area for the ski school. From the village you can take Woodward Express for eight unique beginner runs or take Kokomo Express for the most beginner option taking Roundabout back down for quick runs. Intermediate skiers have incredible options that mostly start from the Center Village. Located directly in the middle of the resort, the American Eagle lift is a 6-seater that provides immediate options to get your runs in, including Main Vein which is located directly under the lift. There are four main runs that you can do from that lift, but from there, if you go over to Excelerator lift, there are ten more runs that await you on the east side of the mountain. Finally, there are seven intermediate runs on the west side of the mountain as well that will require you to take American Flyer from the Center Village. The main area for advanced and expert skiing starts in the East village, where the Super Bee lift will take you to many options. To the south of that lift are multiple bowls and incredible expert terrain, but if you prefer great advanced options you may want to take Collage or Andy's Encore, both intermediate runs, down to the Alpine lift where you will find many additional advanced options.
